

A donation of an electric scale has been made in your honor

Our dryers want to make sure you get each and every gram of the delicious fruit that you pay for. To ensure precision, the dryers use electric scales to weigh out the fruit portions for each bag.

The donation of an electric scale serves as a symbolic gift and will support Partners for Just Trade's work toward building a just, global marketplace that includes Cameroonian farmers whose land has been usurped by a multinational corporation. The Fair Fruit project has renewed the hope for the families and communities involved in its production.
