

A donation of an electric sealer has been made in your honor

To preserve the freshness of the dried fruit and prevent any outside contamination of the product after packaging, the fruit pouches are heat sealed with an electric plastic bag sealer.

The donation of an electric sealer serves as a symbolic gift and will support Partners for Just Trade's work toward building a just, global marketplace that includes Cameroonian farmers whose land has been usurped by a multinational corporation. The Fair Fruit project has renewed the hope for the families and communities involved in its production.
